Pacific Railroad — Complaints from Panama—General Grant's First Message—Seward and Reverdy Johnson—Important Legal Opinion — Appointment — Case of Collector Cake—Arrival of Admiral Farragut.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, November 24, 1868.

A part of the Government subsidy to the Pacific Railroad Company is witheld for the present, until the Commissioners make report upon that part of the road recently finished, which it is claimed is not what has been promised.

Our merchants in Panama complain that the commercial taxes in that country have been doubled, and Secretary Seward has ordered an investigation of the matter.

General Stoneman's report that he could not find loyal men to fill the offices in Virginia is denounced here by prominent Virginians as entirely untrue.

General Grant will favor in his first message the election of President, directly by the people, in future, for the term of ten years, and not to be eligible for re-election Congressmen to be elected in all the States with the President.

Commissioner Rollins has completed his report. He opposes an increase of the whisky tax.

Mr. Seward has accepted Reverdy Johnson's plan for the settlement of the Alabama claims with a few unimportant modifications.

Attorney General Evarts has rendered an opinion to the Secretary of the Treasury, that to convey from the outlet of the worm the product of distillation to a still, or doubler, through which such product has not passed before reaching the worm, is not a violation of the act of July 18, 1868. The interposition of a tank as a receptacle between the worm of the first distillery and the double, or the second worm, is not a violation of the act. These conclusions refer only to proof spirits and not to the rectifying of the same, or the manufacture of other alcoholic compounds.

The new Postal Convention with Great Britain was to-day signed by the President, and goes into effect January 1st.

C. E. Creecy, appointing clerk in the Treasury Department, was to-day appointed Supervisor of Internal Revenue for Louisiana and Arkansas.

It seems understood that nothing will at present be done with the case of Collector Cake of Philadelphia. Neither is it likely that the Secretary of the Treasury will recommend his suspension under the Tenure-of-Office act.

Admiral Farragut arrived to-night, and is the guest of the Secretary of the Navy.

PHILADELPHIA.

The Hill Murder Case—Mr. and Mrs. Colfax Attend a Church Celebration—The Rathbone Oil Company—City Debt—Meeting of the Fenian Convention.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, November 24.—The murder of Mrs. Hill still causes great excitement. The station house in which Mr. and Mrs. Twitchell, the supposed murderers, are confined, has been surrounded all day, and some persons go so far as to threaten lynch law. The prisoners were taken out the back way at noon, and were present at the Coroner's inquest. It is said that Mrs. Hill was robbed after she was murdered, but this not true. The trial will commence at once, it is said, and will be very exciting.

Mr. Colfax attended a church celebration in Camden last night and made a neat speech, in which he said he had been welcomed with kindness, far above his deserts all over the country by his fellow citizens. The ladies presented Mrs. Colfax with a magnificent basket of flowers.

The Rathbone Oil Company have again been sued for false pretence, and this time will have to produce deeds and other papers to prove their ownership of the oil lands, on the strength of which they boasted of a capital of half a million dollars at one time.

The total debt of this city, all of which is funded, amounts to nearly thirty-eight millions.

Stafford & Co.'s woolen mills, at Manayunk, were totally destroyed by fire yesterday afternoon. The loss will amount to fifty thousand dollars; not half insured.

The Coroner's jury in the case of the murder of Mrs. Hill rendered a verdict that deceased came to her death at the hands of George Twitchell and his wife. They were committed for trial. The evidence to-day completely destroyed the theory of robbery and murder by outsiders.

At the Fenian Convention to-day, only preliminary business, such as the appointment of committees, &c, was transacted.

Arrival of the Steamship China—Later from China and Japan.

[By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, November 22.—The steamship China arrived this morning with advices from Hong Kong to October 15th, and Yokohoma to October 28th. She brings about four hundred passengers for San Francisco, New York and Europe.

The United States steamer Oneida (the ram Stonewall), several English, French and Dutch ships of war were at Yokohoma October 28th.

CHINA.—The Chinese gunboats fired upon a European steamer for the reason that she would not display her flag in passing. The matter remains unsettled.

The Cheevo gold diggings are reported doing well.

Pekin advices report that the rebels were entirely dispersed.

The passengers and crew of the ship Hawaiian, a China packet, who were wrecked among the Phillipine Islands, in August last, arrived at Hong Kong.

JAPAN.—The Mikado having reached his majority was crowned Emperor of Japan at Kiato.

A difficulty occurred between the Dutch officers and the Japanese authorities. The latter forbid the transaction of any business at the Custom House for Dutch subjects. The matter was finally amicably settled.

Yeddo still remains closed to foreigners. It is expected the opening of the city will not be postponed beyond the first of November. The event depends upon the result of the conference now being held between the Foreign Ministers and the Representative Mikado.

The Japanese Government has effected a loan of over half a million dollars from the Oriental Bank corporation. The security is a lien on the Custom House receipts.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 24, 1868.

FIRE IN TRINITY BUILDINGS.

A fire this morning commenced in the roof of Trinity buildings, No. 111 Broadway. The building, which is a very large one, was badly damaged, the two upper floors being nearly all burned out, the roof destroyed and the remaining lower stories very badly injured by water. Two or three firemen were slightly injured by the falling of a ceiling.

THE ERIE RAILROAD AGAIN—THE PLOT THICKENS.

Henry B. Whelpley, a citizen of New Jersey, yesterday preferred a bill of complaint before Judge Blatchford, of the U. S. Court, asking inquiry into the validity of the issue of the 200,000 shares of the Erie stock in exchance for the convertible bonds under the resolution passed by the Board of Directors on the 19th of February last: and if it should be adjudged illegal, that the Company be compelled to make good to the holders the amount therefor; and that in the meanwhile an injunction be placed on the Company preventing their parting with the property, and that a Receiver be appointed, and the Company be directed to transfer enough property to him to meet the claims of the plaintiff and others. On this complaint Judge Blatchford issued the injunction and appointed Jay Gould, as Receiver of the road to the extent above mentioned, with sureties in the sum of one million dollars, and that eight millions in money and securities be placed in his hands, subject to the further orders of this Court, to protect the plaintiff.

THE ERIE COMPANY PLAYS TWO CARDS.

Two new suits have been begun by the Erie Company, one against Belmont and others, and the second against Richard Schell, Daniel Drew, and Frank Work. In the first the Company claim one million dollars against the defendants, for hampering them by means of suits last spring, and those recently begun for the second damages to extent of four hundred and ninety-five thousand dollars are claimed for alleged corrupt practices of defendants while acting as directors in June last, said amount having been paid out of the funds of the Company by Messrs. Eldridge, Drew and Thompson, to settle the first named suits, and out of which said Work received one hundred and fifty thousand dollars; and also bought from the friends of Schell, for the Company, five millions of its own stock, for which he paid one million more than the actual value. Gould also alleges that offers have been made to agents of the Company so settle the recent Belmont suit if the Company would save them a large amount of money. Judge Barnard to-day issued an order vacating the orders granted by Judge Sutherland yesterday. Subsequently Judge Sutherland issued an order requiring the defendants to show cause why the order of Judge Barnard should not be vacated, which will be argued to-morrow. Fisk and Gould are entrenched in the Erie Railroad Depot, at the foot of Chambers street, and no person is permitted to approach who cannot prove himself a friend and brother, and even then there are more keys to turn and bolts to unbar than at the tombs. There are some deputy sheriffs inside the building, but on what business they refuse to tell.

FURTHER CHARGES AGAINST MINISTER WASHBURN.

Further correspondence is published between Minister Washburn and the Paraguayan government. Benitz, the Paraguayan Minister for Foreign Affairs, charges Mr. Washburn with corresponding with Caxias, and forwarding important information to him under the seal of the Portuguese consul, and supports his charges by the affidavits of Dr. Carreras and Minister Berges. Another more serious charge is that he carried drawings of the Paraguayan camp to Caxias, and received from Benigno Copez, one of the alleged conspirators, $16,000 and afterwards $14,000 in currency, and a promise of $50,000 in consideration of this act, and also in consideration of his binding himself to recognize the success of the allies.

BILL OF INDICTMENT.

The grand jury of the Circuit Court for the Western Dissrict of New York, have found a bill of indictment of nine counts against Commissioner Fullerton, Jacob Depuy, Alfred A. Belknap, Daniel C. Bridsall, Edward J. Windust, for conspiracy against the Revenue Collector, Thomas E. Smith, and of receiving from him $10,000 under a threat of informing upon him, as to the offences with which he is charged before United States Commissioner Osborn. The parties appeared and gave bail in the sum of $25,000 each to appear and answer to the charge.

GREAT BRITAIN.

LONDON, Nov. 23.—Mr. Gladstone, in a pamphlet entitled "Chapter of an Autobiography," just published, defines and defends his changes of opinion on the subject of church establishments. All the Liberal journals review the book; but apparently copies were not furnished the Conservative press, as they are silent about it. The *Times* regards the publication as a voluntary and hazardous confession.

LONDON, November 23.—*Evening.*—Elections were held to-day in nineteen counties. The Conservatives carried the larger number of these elections, and have somewhat reduced the Liberal majority in the House. The totals now stand as follows: Liberals, 343; Conservatives, 212; the Liberal majority being 131.

A rumor is in circulation that Joseph Mazzini, the great Republican leader, died on Friday last, at Lugano, in Switzerland.

The *Pall Mall Gazette* urges the Alabama Claim Commission to sit alternately in London and Washington, for the convenience of both British and American claimants.

Mr. Gladstone, and his colleague, Mr. Grenfell, have been defeated in Southwest Lancashire. At the conclusion of the poll, the vote stood: Cross, Conservative, 7,730; Turner, Conservative, 7,670; Gladstone, Liberal, 7,390; Grenfell, Liberal, 6,930.

Among the candidates elected yesterday are Sir John Simeon, Liberal from the Isle of Wight, Sir Patrick O'Brien, Liberal, from Cings county, and John Brady, Liberal, from Leitrim.

LONDON, November 24.—The funeral of the rioter shot at Drokheda was the occasion of a Fenian display there on Sunday. Great crowds were in the streets and fully 8,000 men in procession. The Fenian demonstration at Dublin and in Hyde Park, London, on the same occasion, were trifling affairs.

LONDON, November 24—*Midnight.*—The counties in which the elections were held to-day return a majority of Conservatives. Middlesex has been carried by Lord G. Hamilton, Conservative, and Lord Enfield, Liberal; Cambridgeshire elects Lord G. Manness and Lord Rayston, both Conservatives; Messrs. Broderick and Peck, Conservatives, are returned from Midsurrey. At this hour the total figures are: Liberals elected, 363; Conservatives elected, 246; Liberal majority 117.

SPAIN.

The changes are to go into effect on the 1st of January. The following are among the provisions of the new decree: All vessels are permitted to enter Spanish ports on paying tonnage dues from 50 to 130 reals per ton; reductions of the tariff made by the decree of October are revoked, and the payment of the semi-annual interest on the public debt is provided for.

It is officially announced that the election for delegates to the Constituent Cortes will take place on the 15th of December, and the Cortes will meet on the 15th of January, 1869.

Large public meetings have been held in Barcelona by the Monarchist and Republican parties. Processions with bands of music paraded the streets, and other demonstrations were made; but though political feelings run high, all proceedings have been peaceable and order is respected. The Monarchists are largely in the ascendant, though the Republicans seem to be gaining. All parties in Madrid are preparing to make similar demonstrations, and there is every indication for a lively canvass before the coming election.

A transport with a barge of war stores sailed from Cadiz, on the 20th inst., for Havana. The fleet of transports with troops for Cuba will sail on the second of December.

[By Telegraph to the Pittsburgh Gazette.]

RICHMOND, Va., November 24.—H. Rives Pollard, editor of the *Southern Opinion* newspaper, was shot and killed at ten o'clock this morning, while passing near his office, by James Grant. The cause for shooting was a publication reflecting on the character of a member of Grant's family.

RICHMOND, November 24.—The following are the particulars of the tragedy which took place this morning: On Saturday a report was published in the *Southern Opinion* relative to the elopement of the daughter of Wm. H. Grant, a wealthy tobacconist of this city. This morning, about ten o'clock, as H. Rives Poilard, editor of the paper, was near the office door, near the corner of Main and Fourteenth streets, going in, a shot was fired from the upper window of a building opposite. Mr. Pollard immediately fell dead, eleven buck shot having entered his body, passing through his heart. The police searched the buiilding and found Jas. Grant, brother of the lady named, in a room. Exciting Rumor—Man Lynched—Another Killed with a Fence Rail.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, November 24.—On Sunday night the neighborhood of Hickory Hollow, near Holly Springs, was excited by the report that a band of men were on the road near there robbing all who passed. Next morning a party of citizens went in search of them. Calling at the house of one Reynolds, lately driven from the county for horse stealing, to ascertain if he had returned, they inquired of his wife whether he was there. Receiving a negative answer. Benjamin Avert attempted to enter the house, when he was fired upon by Reynolds with a shot gun and mortally wounded. Reynolds was then arrested and started for Bolivar jail; but on the road a party of masked horsemen surprised the guard, and took Reynolds off. His body was found yesterday hung to a tree. Avert was a son of Dr. B. V. Avert, a well known physician of this city. He had recently married.

A Talk With Grant.

We quote from a Galena correspondent of a New York Journal, some recent utterances of the President elect:

Referring to Andrew Johnson, the General said: "Yes, he'll always stoutly attribute the Democratic defeat to their failure to nominate him in New York."

Whenever he has occasion to refer to the Democracy at all, he applies the term "Copperhead," for he only recognizes two parties in the land, one *with* the rebels, and the other *with the loyalty of the nation.*

Magnanimity and generosity are largely developed in Grant's nature. He is punctillious about observing the terms of the parole given the surrendering Rebels *so long as it is not broken by them.* Hence his unyielding opposition to any interference with Lee by Andy Johnson while Lee kept the plighted faith. But Gen. Grant feels keenly concerning the diabolical course of the Ku-Klux-Klan, composed as it is almost wholly of paroled rebels, and countenanced and led by rebel officers, and he is not insensible to the palpable fact that rebels in editorial places can easily break the terms of the parole by advocating incendiary doctrines and fomenting turbulence and bloodshed. The day following his election he said to me: "I'd like to see the tone of the rebel papers now. I imagine they will quiet down, as they did after Lee's surrender."

I was conversing with him of the expansion of the Western settlementss, of the railways to the Pacific and the grand results in that direction, while the impious and rebellious South has pined and suffered.

"I think," said Grant, "that Providence must have had a hand in it, and prevented an earlier reconstruction of the South for two reasons: first, to keep the tide of emigration and enterprise flowing into the vast and productive West; and secondly, to punish the Southern people, through their own agency, for their unceasing errors."

THE quarterly report of the National Banking Association shows liabilities and resources to the amount of $1,988,267,566.

CLIPPINGS.

MR. CLAY, our Minister to St. Petersburg, has been allowed to withdraw his resignation, which had already been accepted.

THE persimmon crop this fall is enormous. Old woodsmen say that this is a sure sign of fat 'possums and a hard winter.

GEN. SCHRIVER reports that West Point Academy contains two hundred and twenty-four cadets, but could as well accommodate four hundred without any additional cost, and he therefore recommends an increase to that number. His estimate for repairs and improvements, this year, is sixty-five thousand dollars.

RALPH WALDO EMERSON has just finished a course of six lectures on philosophical subjects in Boston. They are spoken of as characterized by a nobility of sentiment, richness of thought, fertility of illustration and splendor of diction such as no other lecturer can command; and it is said that in Boston they drew together an audience such as no other lecturer could tempt into the lecture room.

A NEW cattle disease has recently made its appearance in England, and is said to be caused by the swine feeding too largely on acorns and horse chestnuts. Post mortem examination show that the blood is disorganized. The symptoms are dullness, ending in extreme prostration, loss of appetite, small and frequent evacuations, colorless urine, discolored and ulcerated membranes, and a weak but not rapid pulse.

THE official returns of the vote of New York State show some very curious facts. Grant's vote was 517,531, and Griswold's 408,101, evidencing that 9,430 Democrats voted the Republican ticket for President, while preserving their partizan affiliations in local politics. Nothing could better show the unpopularity of Seymour. He has always run behind his confreres, and the late contest has proved no exception.

MR. ALLEN, of Norridgewock, Maine, says the cause of the falling off in school returns in that State during the last two years is not on account of carelessness or mistakes in the return of the number of children, but that the children are becoming less in number yearly, except in manufacturing towns or where there is an influx of foreign population. Forty years ago ten children was a common number in a family; now the average is but four.

THE NEW BISHOP OF EASTON, MD.—The Right Rev. Henry C. Lay has been elected Bishop of the new Protestant Episcopal Diocese of Easton, Md. The Convention was held on Friday last, the 20th inst., and the vote was as follows: Clerical vote, 14 for Bishop Lay, and 6 for Dr. Pickney. Laymen's vote, 30 for Bishop Lay and 8 for Dr. Pickney. At the time of his election to this new Diocese, Bishop Lay was Missionary Bishop of the Diocese of Arkansas.

THE eruption of Mount Vesuvius will probably relieve the countries of Europe from the threatened earthquakes. The mountain, as reported by Atlantic cable, is in a very vigorous condition—the streams of lava filling and overflowing the long, deep crevices in the side. The direction of the current is the same as during the eruption of 1855. On the night of November 16th, the upper cone discharged columns of ashes, occasionally illuminated by flashes of fire. Crowds of spectators are hurrying to Naples to witness the grand sight.

TELEGRAPHIC DISPATCHES from the United States to Great Britain, have heretofore been communicated to English readers on what is called a system of retardation, or the least possible news at the last possible moment. The returns of the Presidential election of November 3d, however, were furnished in the London papers of November 4th, in the form of an intelligible summary, and Englishmen are congratulating themselves that this unanticipated promptitude may be the sign of a more energetic style of managing the transmission of news.

THE following recipe is claimed to be an unfailing remedy, and has been tried with success in two instances where soldiers were bitten by rattlesnakes on the plains: Ribron's antidote to the poison of a rattlesnake —R. Iodide Potassii 4 grains; Hydrarg. Chlor. Corris. 2 grains (corrosive sublimate); Bromine 5 drachms, Ten drops of this mixture diluted with a tablespoonful or two of brandy, or wine, or whisky, constitute a dose, to be repeated if necessary. It must be kept in glass-stoppered vials, well secured, as the air will affect it. This is an invaluable remedy.

A REMARKABLE account is given in a late English paper of the escape of a convict from prison. The cell in which he was confined had an iron door, with a lock entirely on the outside. The only implements the prisoner had were a spoon, some bits of wire and a needle and thread. Out of the spoon he made a key; by means of the needle he passed a thread over and under the door; bits of wire were pushed through the inspection hole and fasted to this long thread extending outside from top to bottom. The key was also pushed through, and being fastened to the thread, was brought opposite the keyhole by dexterous manipulation of the slender line, worked gently in, then turned by means of the wire, and the door was opened. This is certainly one of the greatest exhibitions of skill and patience on record.

The World vs. the Cincinnati Enquirer.

The *World* in reply to the Cincinnati *Enquirer*, which pretends to read the *World* out of the party, says the Tammany Constitution was entirely opposed to P endleton's plan of repudiation; that it repudiated him and nominated Seymour in consequence; that it never had an idea of pushing Seymour off the ticket, though the editor of the *Enquirer* was anxious that Seymour and Blair should withdraw after the October election. It concludes:

"The pretence of the Cincinnati *Enquirer* that Mr. Pendleton's greenback theory is still a live issue is sheer nonsense. It was argumentatively repudiated by Gov. Seymour's able speech in June. It was for all practical purposes killed by the Convention in July in the successful struggle to defeat its author. The October and November elections gave it the finishing stroke by showing that it could not command the support of Mr. Pendleton's own State. Having thus been repudiated, after a short-lived popularity, by the Democratic National Convention, by Mr. Pendleton's own State of Ohio, and by the country, the mortification of his friends cannot galvanize it into life by senseless aspersions of its early opponents. The bonds cannot be paid in greenbacks without an act of Congress for that purpose, and as the Senate is irreversibly Republican for the next four years, no such act within that time can be passed."

This unfortunate victim, it is asserted, was acquitted twice, but on the third trial he was convicted, and is now suffering the penalty for a crime of which he is innocent.

RIVER NEWS.

The river was about at a stand last evening with five and a half feet in the channel. Weather continues mild and pleasant, and all that could be desired for out door business.

No arrivals aside from the regular packets. The Kenton from Portsmouth was due last night, and will doubtless be found in port this morning. The St. Charles from Cincinnati and Bellevernon, from Evansville, are among the first boats due.

The Grey Eagle, Capt. C. L. Brennan, is the regular packet for Parkersburg to-day, leaving promptly at noon.

The Silver Cloud No. 2, Capt. John B. Conway, is announced to depart for St. Louis this evening, without fail. The Cloud is in all respects an excellent boat, and offers superior accommodations to passengers.

The R. C. Gray, Capt. Isaac Whittaker, is announced for Memphis and New Orleans.

The Tom Farrow and Barges, Capt. Chas. Mathews, is announced to leave for St. Louis this evening, and shippers should bear this in mind.

The Savanna and Armenia, were loading at St. Louis, on Monday, for Pittsburgh.

The Kate Putnam, Capt. Reed, will follow the Silver Cloud to St. Louis.

The Great Republic is avertised to be sold at public auction, at St. Louis, on Friday.

—The Peoria City passed Vicksburg on the 17th for New Orleans, loaded to the guards.

—The sternweeler Montana is reported sunk, eighty miles above Demopolis, on the Warrior river.

—There is a scarcity of fuel below Lake Providence. Pauline Carroll, on her last down trip, was compelled to buy a rail fence a short distance above Vicksburgh to make steam.

—The Ruth, for New Orleans, arrived at Vicksburg on the 17th with about 2,500 bales of cotton, and 500 tons of miscellaneous freight. The Kilgour shipped what freight she had on the Ruth, at Memphis.

—The Magenta arrived at New Orleans on Tuesday night with 3,500 bales of cotton, 4,000 sacks cotton seed, 1,000 sacks of corn, and a large lot of pound freight. The *Crescent* says she had the largest freight trip of the season.

—The Mississippi left Memphis for New Orleans on Wednesday with 1,250 bales of cotton, 3,000 sacks of corn and 250 tons pound freight. She had also over one hundred cabin passengers, with her engagements in the bends. She will go into New Orleans with one of the best trips of the season.

—A steamboat twenty-two feet in length, and carrying eighteen persons, has been built on Washoe Lake, Nevada. It has a brass engine, weighing seventy-five pounds. It is intended for a pleasure boat, and it is proposed by a party to take the boat by wagon and railroad to Wadsworth, thence by Truckee to Pyramid Lake, the many wonders of which will be thoroughly explored.

—The Decatur (Albama) *Rebublican*, of Wednesday says: Yesterday was a proud day for Decatur; the first steamboat since the war was launched from the shipyard, the Ida. Well may our citizens be proud of the enterprising spirit that prompted our worthy townsman, Captain Mat. Todd, to such an undertaking. The Ida—named complimentary to a beautiful and accomplished young lady, Miss Ida Harris, of Limestone county—is one of the handsomest and stanchest boats that ever floated on the blue waters of the Tennessee.

—The Cincinnati *Gazette* says: We have been informed that five steamboat collisions have taken place in the vicinity of the late disaster to the J. N. McCullough, four of which we can call to mind: The collision of the C. E. Hillman and Nannie Byers; that of the Leonora No. 2, and Lady Grace; that of the Lady Franklin and Jane Franklin, and that of the Tiger and J. N. McCullough. It has been jocularly suggested that the J. N. McCullough be left there, and that there be a bright light placed on her as a warning signal to passing steamboats.

—The Nashville *Banner*, of Friday, says: Competition of a lively nature is springing up between the railroads and the steamboats. The Louisville & Nashville Railroad yesterdy re-established the rate of $1,75 per bale on cotton to Cincinnati. On the other hand, the R. Moore, which leaves for that port at four P. M. to-day, has already received 175 bales, and will get 150 more to-day, at, we are informed, $1 per bale. She has also engaged 200 barrels of flour for Baltimore, and a large lot of peanuts for Pittsburgh. With 175 tuns of pig and bloom iron which awaits her below, she will have as much as she can well swim with out of the river.

If our object should be properly appreciated, we will endeavor to make the line work to the advantage of all concerned.

DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the internal organs may be, and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days In long standing cases of consumption, or of other sometimes fatal, but always troublesome and annoying maladies, known as catarrh, chronic bronchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure cure in he latter disease.

DR. KEYSER'S LUNG CURE IS ENRICHED BY SOME OF THE MOST VALUABLE PLANTS AND HERBS KNOWN TO BE USEFUL AND CURATIVE IN ALL DETERIORATED STATES OF THE HUMAN BLOOD, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glanular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, hopelessly incurable and so most surely fatal.

GOLD closed in New York yesterday at 134⅜.

THE latest telegraphic romance reads that President GRANT will advocate a ten-year Presidential term, with no re-election. That story will do until some impecunious Bohemian starts something better.

MR. SEWARD has written a very graceful letter to a friend, which has been published, on the death of the lamented Gov. TOD, of Ohio. In it he says truthfully that few citizens of the United States have left a purer or a nobler record.

H. RIVES POLLARD, a noted journalist of Richmond in the days of the Confederacy, was assassinated in that city yesterday. His death was the result of a private quarrel growing out of his domestic relations, which have heretofore occasioned much public scandal. He was a vigorous but bitter writer, and leaves very few personal friends.

THE Philadelphia *Press* will issue a Christmas number made up altogether of reading matter suitable for the great Christian holiday. Among the large number of contributors we notice its editor-in-chief down for a story. The reading public will look forward with much anxiety for the Christmas *Press*, as it promises to prove a very remarkable number.

RECENT allegations against the character of the work executed by the Union Pacific Railway Company, are to be investigated again. One "enquiry" has already resulted in releasing this company from imputations, but this seems to have failed to satisfy the government. Whether the charges shall be sustained, or exposed as a mere black-mail movement against the Company, remains to be seen.

IN a bankruptcy case before the U. S. Circuit Court, at Cleveland, Justice Swayne holds that property, alleged to be sold by the bankrupt in fraud of the act, may be recovered by the assignee under summary proceedings, submitting the issues of fact to a jury if need be. The court considered this to be a needful and legal auxiliary to the more formal method of proceeding by a suit at common law, or a bill in equity.

THE Republicans of New York City, hopeless of overcoming a Democratic majority so large that, if evenly divided, the moiety would outnumber them, propose to make no nomination for the Mayoralty, but will support any honest Democrat who shall be put in the field. We are pained to add that there is as little hope for the occurrence of this contingency, and that the city will continue to be ruled by the most unscrupulous ring of corrupt politicians in the Union.

THE tobacco manufacturers of Cincinnati have held a meeting on the subject of the new tax law, and have resolved to memorialize Congress for important amendments necessary to secure the life of the trade. The preamble to a set of resolutions denouncing certain clauses of the Act as oppressive, unjust and wholly unprecedented, cites that the enforcement of the provisions of Sections 78 and 94 will operate to the serious damage of the interests of those engaged in the business, the present construction of the act having already paralysed the trade.

VIRGINIA is not wholly false to her own traditionary glories. She scorns the imputation, from a Radical Yankee soldier like STONEMAN, that she has not enough of loyal men to fill the offices in that State—protesting that for that business, she is loyal to the back-bone. One of her distinguished and indignant citizens—Mr. BOTTS—even avows his entire readiness to take the contract to supply loyal incumbents, from Virginia, for every office in the Union. None will doubt his sincerity in this offer, who know the boundless capacities in that line, of the Mother of States.

A SPECIFIC statement of the accusations of the Paraguayan government against Mr. WASHBURN has appeared. Its glaring improbabilities strengthen our belief in the Minister's entire innocence, and that his record will be found creditable to the man, if not successful for its diplomacy.

The Zanesville *Courier* says:

"R. C. Kirk, formerly Minister to Buenos Ayres, writes the Columbus *Journal* asking a suspension of judgment in Mr. Washburn's case until he can be heard. From his acquaintance with Mr. Washburn, he feels assured 'that when we become conversant with all the facts, we will be compelled to the conclusion that Mr. Washburn has been greatly wronged.'"

THE LATEST OUT-GIVING, from our Delphic Secretary of State, runs that Minister JOHNSON has done very well, with the Alabama claims, "as far as he has gone." No information from the oracle tells us how far that may be. It daily becomes more probable that the Secretary, very reluctantly, finds himself compelled to accept a situation which he has persistently opposed, and that the Minister, in conceding the English right to acknowledge the Confederacy as belligerent, has not only given up the Secretary's favorite point, but has done it so effectually as to leave Mr. SEWARD no longer any latitude to resist the concession. We have no objections to his letting himself down as easy as possible.

UPON the assembling of the Ohio Legislature, on Monday last, the annual message of Gov. HAYS was presented and read. It is a concise, well written document, touching briefly on topics of importance. From it we learn that during the year the receipts were $4,347,484,82, against disbursements of $4,455,354,86. The balance in the Treasury is $570,120,74. The outstanding debt of the State is $10,532,675,42. He advises a Registry Law to prevent the fraud known as colonization, believing that an act providing for the registration of all legal voters is the most effective remedy yet devised for the prevention of frauds on the sacred right of suffrage, and that a registry law can be so framed that it will deprive no citizen, either native born or naturalized, of his just rights.

SOME of the leading Democratic journals are indulging in unamiable recriminations, over their alleged mismanagement and lack of fidelity in the closing hours of the late canvass. They reveal the confidential intrigues of October, with a freedom which would astonish observers not familiar with the elasticity of conscience which is the one essential of a Democratic journalist. The cabal in which Cincinnati and New York united, to force SEYMOUR and BLAIR into retirement, after the October elections, is now the subject of a quarrel between the same parties, each of whom charges the responsibility upon the other, and seems to make a clear case by the production of the "documents." Our own approbation will be merited by whichever of the disputants shall manfully assume, instead of evading this responsibility, and who shall be frank enough to confess that he regrets the failure of the scheme.

THE CHARTIERS VALLEY.

We learn that a meeting has been called, to be held at Canonsburg on Saturday next, the 29th, of all citizens who are friendly to the proposition for a railway through this valley. We hope that a full attendance will result in the adoption of measures to secure the improvement. Every body desires this, but the want expresses nothing and accomplishes nothing until translated into this vulgar but patent circulating medium. If the half of those who talk much of the need for this work, would express their sense of it by tangible figures written after their names, the work could be more than half done already. Isn't it about time for the "wind work" to give place to assistance more substantial. We suggest that for the leading topic at the Canonsburg meeting.

STATE LEGISLATION AT WASHINGTON.

We agree with the Washington *Chronicle* that "every Republican, outside of Maryland, sympathizes with the loyal men of that State" in the oppressive inequalities which are flagrant in their local administration. But we doubt the asserted power and deny the declared policy of Congress to interfere in the premises. Maryland has an unquestionable right, in her own discretion, to disfranchise a portion of her citizens. It is her own affair, not ours, and to her alone it may be wisely remitted as a question in which she is the sole guardian of her domestic interests. In its own good time, must inevitably come the period when prejudices will fade away, the bitter asperities, of a conflict which has shocked the Republic to its foundation-stone, shall be forgotten; when statesmanship shall once more pronounce for the greatest good of the greatest number, and neither Maryland nor Georgia shall consent to disown or disregard the civil rights of a minority of their population. This period is to be retarded, not accelerated, by that Federal interference which would be as prejudicial as without constitutional warrant. Perhaps the day for which we so confidently look, commending our own patience as an example to our friends in the late slave-holding States, may also witness, everywhere, North as well as South, a general acquiescence in the idea that an Act of Congress is not always either the legal or the effective panacea for every local ill. Congress can do much; its powers have ever been large, and, independent of the influences of the late great rebellion, have been steadily tending toward their own expansion, from the earliest days of WASHINGTON and ADAMS. The centralizing movement received a powerful impetus from the inevitable reaction of the rebel assault, but we do well to remember that it is a movement, now as in the past, which can bear some retardation better than more urgency. Retard it as the wisest of our statesmen may, it will still prove irresistible, in its steady march to the highest and more absolute evolution of Federal principles, while a reasonable and just reluctance to drive forward, faster than we are sustained by the logic of events, will materially aid in ensuring an admirable perfection in our National system.

We could recommend to some of our friends to go gently with their centralizing ideas, but we must in candor confess that many of them are innocent of any such philosophic and far-reaching considerations. They appear to be moved, not by a lofty view of political science, but simply by a blind reliance upon what they regard as the absolute efficacy of a large Congressional majority to redress every grievance, and to satisfy every complaint, no matter what the Constitution shall permit. With these, it is not worth while to argue the question as one of high public policy. It is enough to say to them, that much as Congress can do, there is far more that it cannot and will not undertake. Very certainly, no Republican statesman is yet prepared to ignore all the remaining distinctions, which preserve, and preserve quite enough of, the exclusive functions of State authority, upon any plausible plea.

Our business with Maryland is to conform her Congressional representation to the Constitution and laws of the United States. Her distribution of local power among her own citizens is her own affair, and Congress will not meddle with it. That State, like any other, will sooner or later adjust that question for herself, upon the basis of Justice, Equality and Interest.

The proposed Federal revision of the Maryland Constitution has absolutely not the shadow of Federal warrant. Nothing is clearer than that it is the exclusive right of the State to distribute its own local authority as it shall please. Wholly a domestic question, how the State Legislature may be constituted and who shall be elected therefor, there is not the remotest pretense that her Federal relations are thereby unduly influenced. The proposition that Congress shall interfere is, therefore, purely in the interests of the abstract principle of Equal Rights—a principle to which in all its just applications we are profoundly attached, but not to the extent of an arbitrary propagandism. We defend the principle equally against those who directly impugn it, and those others who would degrade its moral potency, and secure for it the disgust rather than the devotion of good citizens, by straining it to an illegal and unnatural province. Republicanism must win its enduring and only solid triumphs by the surrender of opposing convictions, and not by mere brute force.

Our friends in Maryland are unwise to make this false issue. Let them apply themselves to a more practical question, which can have practicable and speedy results. Instead of agitating abroad for an end which they can only accomplish at home, let them reserve that question for the people of Maryland, to whom it exclusively belongs, and if they ask anything from Congress, let it be what Congress can grant, and what it is the present duty of Congress to pass upon. The same class-interest which claims an undue voice in the State Legislature, also claims and holds an illegal share of the Federal representation. Here should be the real objective point of the Republican movement in that State. Ask Congress to reform Maryland's Congressional delegation, in accordance with the Federal Constitution, and when that is accomplished, as it will be, our friends will find it a long step toward their relief in other respects, for that adjustment will operate powerfully, although indirectly, to accelerate the recognition of an entire Equality in local politics.

LETTER FROM MRS. SWISSHELM.—No. 2.

[Correspondence of the Pittsburgh Gazette.]

A LOST CHILD.

In a recent letter, a friend, once a prominent merchant of Pittsburgh, and now doing business in Chicago, writes us: "Our daughter's health is very frail. She has scarcely sat up since she lost her child.

We had known that the little Lulu, at the close of her fifth year, had had her bright eyes closed by trembling fingers and her sunny hair forever covered by the coffin lid, but were not prepared to hear her Christian grandfather speak of her as "a lost child." We thought that the little one had been sent on an errand from her Father's house and that when it was done He had called her home. We had thought that the lamb was in the wilderness, going toward pit-falls and darkness and beasts of prey, and that the Good Shepherd had found her and taken her in His arms and carried her to the fold, where she awaited, in security, the coming of the wanderers who had loved her here. We had thought that, like the shepherds of the Alpine hills, He had taken the lamb to the heights above that the mother might be constrained to look upward and follow but a lost child! Poor, blind parents, whose gathering storms of grief and tears obscure the upward view!

We once knew of a lost child. A lady with whom we were intimate in Washington told us the story of an uncle's family. He was a wealthy farmer and had an only daughter twenty years old. She was of unusual personal attractions and beautiful in mind as body, a member of the Presbyterian Church and of most exemplary life and conversation. She spent some time in a visit to some friends in Albany, who, on her starting for home, which was on the farther side of Syracuse, saw her upon the train, got her baggage checked and bade her farewell, in the morning, feeling that, before night, she would be at home. That was the last that is known of her. Her trunks reached Syracuse. Her father and mother spent all their property and time for years in seaching for her, and when the story was told to me twenty years had elapsed and no trace had been found. For years and years her parents had only prayed to know that she was dead; but none, for one moment, believed that she had wilfully caused them this great sorrow. The only solution of the mystery was that, under some plausible pretext, she had been induced to go into some house where purity was no protection and resistance vain, and had taken her own life, or that some one had murdered her to avoid exposure, and, in either case, the body so secretly disposed of as to elude all search. Had the greatest evil consequent upon abduction befallen her, and she could have escaped, would she have had the moral courage to face that scorn which the world indiscriminately pours upon misfortune and sin? Would the Christian world have aided the crushed parents in finding and binding up the wounds of this lost, lost child?

In country places, when a child strays away, the neighborhood is in wild excitement, and men, women and children join in the search for the lost child. Work is forgotten, sleep is impossible, until the little one is restored to home and friends or its body found. If thorns have torn it, or an evil beast has wounded it, no care is too tender and no interest too intense and general for its healing; but the lost child on the terrible wilderness of city streets! Who searches for him or her? Who rescues him or her from the cruel fangs of the beasts of prey which infest our thickets and jungles?

What are panther or lynx or venomous reptile compared to those who crouch or lie in wait for souls? What efforts do Christian communities make to guard the unwary pet from the pit-fall and the snare? Alas, they are feeble and desultory, while the cunning wiles of the enemy are continuous and concentrated. Who rescues the lost child from the tempter's fangs, more cruel than those of any hyena?

Christians, think of how much time your Example spent, in seeking and saving those who were lost, while He was in this life; and how can you pretend to mar His name, while turning your back upon those who might be saved through your effort, and will not.

In organizing the "Christian Woman's Home" a few of His followers aim to save, at least, some of those who must otherwise go down to death. Help them! Help them now, lest they be discouraged and turn back. The Five Points Missions, have restored hundreds of women to self-respect and usefulness, who, without them, must have passed their lives as so many pestilences, bringing sin and misery to those around them, instead of leading useful lives and setting examples of successful repentance.

It is possible to get many girls away from prisons or houses of infamy and make them useful members of society. There are eight, now, in the "Home" who give good hopes of better lives, and two have gone out, and, after a fair trial, have done well. Let it be known that there is some place to which a fallen woman can go, and find shelter without being compelled to sin. To do this, send contributions to the Fair at City Hall next week, or to the "Home," 45 Chatham street.

JANE G. SWISSHELM.

Opinions of the Press.

[From the Butler Citizen.

The duty of selecting a Senator devolves, under the Constitution, upon the Legislature. So far as our county is concerned, our Republican friends would doubtless be delighted at the selection of Ex-Governor Curtin. Should his name not be before the caucus, however, we incline to the opinion that the success of Thomas M. Marshall, Esq., would be most satisfactory. Of this, however, our Legislators must be the judges; with them we leave the matter for the present, with full faith in their wisdom and fidelity.

(From the Philadelphia Bulletin.)

Mr. Grow is, of course, not the only man Pennsylvania could send to the United States Senate with honor to the State and with due regard to the principles of Republicanism. But he has some special qualification, and, so far as such a thing should ever be recognized, his name has some special claims to the consideration of the Legislature. His long devotion to the cause of freedom; his prominent position in the Republican party as one of its most efficient leaders; his thorough training in the whole business of our national Legislation; his natural gifts of mind and spirit, which fit him eminently as a public debater and statesman; his character for sterling integrity, and for broad and impartial views of State and national policy; these are some of the reasons why we present the name of Galusha A. Grow to the Pennsylvania Legislature as a most fitting successor to Mr. Buckalew in the Senate of the United States.

The Legislature must give us a man, about whose personal and political record there is no doubt. He must be a man capable, tried and honest. We have no interest in urging the name of Galusha A. Grow, beyond the common interest of seeing good men placed in all our offices. We desire neither to recommend nor to support any other, for any office; and we believe that the stability and efficiency of the Republican party can be maintained upon no other principle.

(From the Waynesburg Republican.)

Names of prominent men are already being brought forward as candidates for the next Governorship. Gov. Geary is out for renomination. We see by some movements that Hon. Geo. V. Lawrence, our present Congressman, will be presented as a candidate. If the nomination falls to the west end, as it should do, we do not know of a better man for the position than Mr. Lawrence.

[From the Blair County Radical.]

Gen. John W. Geary, has proved himself an honest, able, faithful Executive officer; and his consenting to be a candidate for renomination, ensures the people at least one worthy candidate for the gubernatorial office next year. If the other aspirants, are as incorruptible as our present Executive, the nominee, whoever he may be, will be eminently worthy of the suffrage of the great Republican party of the State.

The Delaware Whipping Post.

The regular semi-annual exhibition of barbarism took place at New Castle on the morning of the 21st inst., seven men being whipped and one pilloried.

The first victim was William Jones, who had been convicted of stealing store goods. He was placed in the pillory at ten o'clock, and stood there in the cold wind with head and hands in fixed position and unable to move his body for one hour. He was taken down at eleven o'clock and taken back to jail to sufficiently recover from the effects of his torture to be able to stand a flogging.

The jail yard contained a large crowd, over a hundred of whom were children—both boys and girls—who appeared to take great delight in the exhibition. Children not five years old were brought by their larger brothers and sisters to "see the show," and with eager impatience awaited its commencement.

At eleven o'clock Sheriff Richardson, cat-o'-nine-tails in hand, made his appearance, and immediately afterwards a little colored boy, who had to stand on a soap box to get his hands in the manacles (which had been wrapped to make them fit his wrists), was led out. He had been convicted of stealing seventy-five cents' worth of pig iron. Twenty lashes with the cat were laid on, and the Sheriff's leniency was such that the boy made no outcry.

The next person whipped was a light colored mulatto boy of sixteen years, who pleaded guilty of stealing a pair of shoes and five cents. He received twenty lashes. He came out with a fixed smile on his face and managed to keep it there throughout the operation.

William Maloney, a young white man, convicted of stealing a bundle of clothing, received twenty lashes.

The next man was George Klutch, an old infirm and gray haired man, convicted of stealing a shirt. He trembled violently and gave forth feeble moans, while his facial contortions showed agony of both body and mind. He received twenty lashes.

Charles Wheatly, a young white man, convicted of stealing a pair of boots, received twenty lashes without displaying much emotion. He, in a spirit of bravado, danced a jig as he went back to jail.

Howard Lee, a slight and trembling youth, with a large plaster on his breast, who plead guilty of stealing a valise, received twenty lashes, very lightly laid on.

William Jones, who had been in the pillory before the whipping commenced, received twenty lashes, and the exhibition closed with a shout of triumph from the delighted children.

Sheriff Richardson evidently shrank from his miserable task, and several gentlemen complimented him on his humanity.

Among the spectators were Rev. George A. Latimer, of Calvary Church; Dr. John Cameron and others, drawn to the place not out of idle curiosity, but from serious interest in this bad and barbaric scene.

[From the Philadelphia Ledger.]

The Working People.

The Coopers' Union of New York have passed a resolution, that on and after to-day the full list of prices shall be demanded. The object of the movement is to raise the price on "liquor work" to the original standard. It is asserted that while on all other branches of coopers' work the regular prices have been sustained, and in some instances increased, the prices in this branch have been reduced nearly twenty per cent. during the past year. The Cigar Manufacturers' Association of New York has passed resolutions to the effect, that as there is no prospect of an equitable adjustment of the difficulties now pending, all workmen belonging to the Cigar Makers' Unions shall be discharged on Friday, the 27th inst., and that no man belonging to the Unions be hereafter employed by any member of this Association; and further, that the advance recommended by the Association at the last meeting be adhered to, so far as non-Union cigar makers are concerned. The proposition referred to by the manufactures is to pay an advance over the prices paid two months ago of $1 per thousand until January 1st, 1869, and then, if the trade be the same as now, a further advance after May 1st., 1869. The Manufactures' Associations further resolved that a circular be addressed to all manufacturers in the United States and Canada, setting forth the difficulties of the Association with the Cigar Makers' Unions, asking co-operation.

A NATIVE Louisianian, a Republican in politics, writes as follows to the Buffalo *Express:* "From the election returns from the North, I see the people understand the condition of the loyal people of the South. Pen and ink can hardly describe the condition of the country. The rebellion is alive again—headquarters in Opelousas, Parish of St. Landry. About all the loyal white men have left the parish. Nearly all the leading Republicans have been murdered, except those that have pretended to take sides with the desperadoes. The same state of things exists throughout the State. Whether I shall live to receive an answer to this letter, is more than I can tell. I never sleep in my own house. Myself and fifty other men are on the watch throughout the night. This is the only course we can adopt to save our lives. I dare not put my name to this letter.

HOMŒOPATHY IN THE UNITED STATES.—The practice of this new theory of cure was introduced, it is stated, in the United States by a German physician, Dr. Grus, who, in the year 1825, published a treatise on the subject. At first not much attention was paid to homoepathy, but in the next ten years, six works advocating the principles of Hahnemann were published. In 1834, Jahr's manual was translated and found many students. At present there are 3.647 practitioners of homoepathy in the United States, of whom 818 are to be found in New York, 347 in Pennsylvania, 352 in Ohio, 275 in Michigan and 251 in Massachusetts. There are 61 Societies, 3 being national, 2 sectional, 16 State and 40 local. There are 7 colleges and 14 hospitals, infirmaries, &c., in different States.

THE Women's Rights advocates will hold their annual convention in Washington during the first week in December.

NATURE'S GREAT ALLY.

It took the world nearly two thousand years to discover and remedy one of the most fatal errors that mankind has ever believed in. From the time of Galen, to a comparatively very recent date, it was supposed that, in order to cure a disease, it was necessary to weaken the already enfeebled patient by artificial means. Bleeding, blistering, violent purgation and salivation were the main reliance of the faculty, not more than fifty years ago. Restoratives were only administered as supplementary agents, after the lancet, cantharides, jalap and calomel had done their depleting work. Modern science has effected a salutary reform in medical treatment. In place of the nauseous doses once administered in cases of indigestion, billiousness, constipation, sick headache, nervousness, intermittent fever, &c., HOSTETTER'S STOMACH BITTERS are now given with the utmost confidence and the happiest results. The reason why this admirable botanical preparation has superseded the debilitating poisons of the old *materia medica* are these: it combines the properties of a wholesome tonic, with those of a gentle cathartic, an anti-billious agent, a nervine, and a blood depurent. Thus, while it keeps the bowels free, regulates the liver, and purifies the current of life, it sustains the physical strength of the invalid, and by this means the expulsion of disease and the restoration of constitutional vigor go on together.

At this season when intermittent and remittent fevers, with other complaints arising from a damp, mephitic atmosphere, are prevalent, a course of the BITTERS is the best means of protecting the system from an attack.

LET ANY ONE TRY A FEW BOTTLES OF DR. KEYSER'S LUNG CURE AND IT WILL ESTABLISH ITS MERITS BEYOND CONTROVERSY.

We feel, in whatever we say in its behalf, that we are conferring a benefit upon thousands of people who would be benefitted by its use. Take any large audience or gathering of people, pay attention for a moment, and see if one out of every ten is not afflicted with a cough. There is no cough without some difficulty of the throat or lungs—trifling it may be at the outset, but gradually growing more and more fearful, until the constitution, at last, is made to succumb to its ravages; and what would have yielded in the beginning to a few doses of medicine has become a fearful lesion, involving life itself. No one can be too careful at this season of the year, to the first premonitors of pulmonary disease, and when a remedy like the one we have named, is within the means of all, the salutary advice which we have given should not be disregarded. Sold at the great Medicine Depot, 140 Wood street,

Presidential Bets—When are they Due?

We have received a large number of questions to the above purport, and as the initial answer to them in this paper will probably govern the delivery of many thousands of dollars, all over the country, we prefer to give as much prominence as possible to an answer of so much importance.

In deciding bets upon local or State elections, it has always been our rule to hold that bets made in the premises, pass to the winners upon the certificates of the State or county canvassers, without regard to any contests that may be set up against the party getting such certificate. There is seldom any hardship growing from this rule, while it gives possession of the wagered money to parties who have honestly won it, without keeping them out of it, as in congressional cases, for nearly two years, on the flimsiest pretexts imaginable. There is, however, another question concerned in this Presidential election, so far as the States of New York, Georgia and Louisiana are concerned. The action of the Electoral College may establish the fact that no election has been held in those States in a legal and fair sense. If the College so decides, and rejects the votes upon the ground that by reason of force and fraud the pretended elections were a nullity, it will avoid all the bets on those States. This is not in conflict with the principle that those who have laid that Grant will be the next President have already won. If General Grant were to die before the fourth day of March it would make no difference to that bet, because the real thing present to the intent of the betors was, not the future remote action of the Electoral College, but the proximate action of the voters at the poll. But, if it shall be decided that the action of the voters at the polls was prevented and perverted by force or fraud, in such flagrant manner that the vote of any State is rejected, then all the bets on the Presidential vote of that State will be null, because there has been no election.—*Wilkes' Spirit of the Times.*

THE ALASKA PURCHASE.—The cable dispatch, that the Barings had drawn one million pounds sterling out of the Bank of England, to be remitted to Russia in payment of Alaska, has revived the story that the difference between this sum, $4,825,000, and the amount, $7,200,000, appropriated by Congress, was used in this country to secure the approval of the treaty and the passage of the bill providing the funds. An investigation into the correctness of this rumor is demanded, but will probably result in showing that there is no truth in it.

This Company, National in its character, offers, by reason of the Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as INCOME PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, *an annual income equal in ten per cent.* (**10** *per cent.*) *of the par of his policy.* The latter the Company agrees *to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.*

The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia, or its General Agents.

"MARGARET MERLYN,"

MRS. SWISSHELM'S

leng talked of work. It is a tale of

WOMAN'S WAGES,

and abounds in the home truths for which the author is noted, and which are here interwoven with a dramatic interest, and that is unflagging to the end. An accomplished critic, who read it, says: "There is not a dull page in it." It gives startling revelations of the inside workings of private benevolent institutions, and must be deeply interesting to all who would like to know what sometimes is done with the money paid to charitable societies. It will be commenced as a serial

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, November 24, 1868.

The money market is well supplied with all the capital required for the present limited business.

Gold is made steady at a nominal quotation by speculators in bonds and stock; at about 134⅝ at the close of business, some large lots were offered by foreign exchange dealers, and the market declined to 134⅜. The sales by the government amounted to one million dollars this week which were sold yesterday at 133 80-100, and to-day at 134½, both a shade below the nominal quotations of the gold room. The increased shipments of cereals, oil, cotton and other produce, as also the gold sales by government, and the large payments of coin in January next, will all contribute to depress the primium, and should Congress soon pass a law legalizing specie contracts, and make government bonds absolutely payable in coin, the demand for bonds would largely increase from abroad, and thereby avoid the shipment of specie.

Government bonds were firm during the day, and had advanced about ¼ to ⅜ per cent. for new bonds, and one per cent. for the old 1862 Five Twenties, in which there is a corner; at the close, the market was rather easier, and the outside quotations could not be obtained.

In stocks but little is doing, and quotations are merely nominal; the appointment of a receiver for the Eried road has had the effect of depressing the stock to 137¾; what the clique will do with their stock is more than anybody can divine; they will, no doubt, make a desperate effort to raise the price of the stock so as to be enabled to sell out on. In Western shares the business is confined to clique stocks, but the outside public have no confidence in present prices. Fort Wayne is the only strong stock held and bought by parties for actual investment, or in order to draw the next dividend. Express shares were very firm, and advanced from 1½ to 5 per cent.

In local stocks the market is quiet; transactions are confined to private sales, and do not become generally known except among a few parties who make it a speciality.

Business is very dull. Money commands from 12 to per cent. per annum for good paper; third rate paper is unsaleable.

Closing quotations as received by Ph. R. Mertz: Gold, 134¾; Eighty-one's, 115½; Five Twenties, 1862, 113¼; do, 1864, 108¼; do, 1865, 108¾; do, 1865, new, 110⅞; do, 1867, 111½; do, 1868, 111½; Ten Forties, 106⅜; Railroads —Cleveland & Pittsburgh, 87¼; Pittsburgh, Fort Wayne & Chicago, 110¾; Chicago & Rock Island, 106⅞; Chicago & North Western, 84½; do Preferred, 87¼; Michigan Southern, 88¾; Reading, 98½; Erie, 37¾; New York Central, 24⅞; Ohio & Mississippi Certificates, 30⅞; Western Union Telegraph Co., 36¼; Merchants Union Express Co., 20¼; Pacific Mail, 117¼; Adams, 4½9; Mining shares—Gregory, 4,95; Quartz Hill, 80; Smith & Parmele, 4,15.

—The Chicago *Tribune*, of Monday, says: The general result of the business of the week closed to-day, has been a slight improvement on that of the previous week. There has been but little increase of activity in business, but what has been done, has put matters in better shape for the closing in of winter, by an increased proportion of shipments of grain as compared with receipts which has consideraly diminished the quantity in store here. Wheat being the article which counts the heaviest in value, will serve as in index of the amount of value held in grain in store as compared to previous years. A few weeks ago, when the check to the eastward movement of grain was causing an immense accumulation here, which seemed a formidable load with which to enter the winter, the amount of what in store was about 1,600,000 bushels. Extra efforts were, however, made to get it off, private capital was changed from advancing on the grain of country shippers, to carry it to New York, the banks strained a point or two, and took a few time bills, and so by hook and crook, and with the dimished receipts, the amount in store is now reduced to about 1,000,000 bushels. At this period in the two preceding years the amount of wheat in store is about 600,000 bushels, which, at the then current prices of about $1,70 to $1,72 per bushel, represented about the same aggregate value as the 1,000,000 bushels do now—a little over $1,000,000. Of the other produce in store, the variations in quantity and value, as compared to last year, would still leave the aggregate value nearly the same as then.

—Closing quotations received by James T. Brady & Co.: Gold, 134⅛; United States Sixes, 1881's, 115½; 5-20's, 1862, 113¼; 5-20's, 1864, 108¼; 5-20's, 1865, 108⅜; 10-40's, 106⅝; 5-20's, January and July, '65, 110⅞; 5-20's, January and July, '67 111⅛; '68, 111⅛; June 7-30's, par less ¼; July 7-30's, do ¼; August 119; Sept., 119; Oct. 118¾; Union Pacific Railroad, 102; Central, 103.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, November 24, 1868.

The general market continues dull, though as noted yesterday, some articles are considerably stronger, particularly Flour, and some kinds of Grain. As yet, however, there seems to be no improvement in the demand, and as a consequence, the volume of business in the aggregate, is light, and prices, generally, are without quotable change. The impression however, is gaining strength that the worst has been passed, and that better times are near at hand.

APPLES—There is a continued good demand, and the market is steady with regular sales at $3 to $4 per bbl.

APPLE BUTTER—Dull but unchanged; sales at 70 to 75 in kegs, and 80 to 85 in crocks.

BUTTER—Is steady with regular sales of prime to choice Roll at 38 to 40c.

BEANS—Sales prime small white, at $3.75 to $4 per bushel.

BUCKWHEAT FLOUR—The demand is rather better, and we can report regular sales at 4½ to 5 cts.

CHEESE—Dull; sales of Hamburg at 17c, and Goshen at 19 to 20c.

CRANBERRIES — None in market; prime eastern cultivated could not be sold here below $24 to 25 per bbl.

CIDER—Sales prime Sweet at $9 to $10 per bbl, of 40 gallons. Demand falling off.

GRAIN—There is little or nothing doing in Wheat, in this market, though it is firmer. Oats dull but unchanged: may be quoted at 60 to 62 on track, and in elevator, and 64 to 65 in store. New Corn is selling at 70 to 75, and old at $1 to $1,05, for mixed to prime yellow. Rye is firmer, and buyers could doubtless be found at $1,38, while, so far as we can learn, there are no sellers below $1,40—that is for round lots. Barley also is considerably firmer, and brewers and malsters begin to talk about buying again: we now quote prime Spring at $1,80 to $1,85, and prime Fall at $2,00.

ONIONS—Very dull but unchanged; we continue to quote at $1,25 to $1,50 per bushel, as to quality.

HAY—Baled continues very dull, with an unusually large supply in this market; we continue to quote, however, at $18 to $25, as to quality.

POTATOES—Peach Blows in good supply and dull but unchanged; sales on track at 75, in bulk, and 80, sacked. Jersey Sweets, $6,50 per bbl, for prime fresh receipts.

LARD—In fair demand and in limited supply; sales of prime kettle rendered at 17c.

MESS PORK—Dull but unchanged at $27 per bbl, for new.

LARD OIL—Is in steady demand and we continue to quote No. 1 Winter strained at $1,50.

HOMINY—Is quoted at $6,50 to $7 per barrel.

FLOUR—The market is firmer, but there is no material improvement in the demand and no quotable change in prices. Western Flours are quoted at $7 to $8 for Spring, and $9 to $9,50 for Winter. The Pearl Mill quote their brands, made of the best Wheat, as follows: Extra Family Flour, in barrels, at $9,50, and, in sacks, $9,20 per barrel; Double Extra Family, in barrels, $10,20, and, in sacks, $9,80 per barrel; Spring Wheat Flour, in barrels, $8,00, and, in sacks, $7,70 per barrel. The City Mills quote prices as follows: Extra Family, (Winter) in barrels, $9,50, and, in sacks, $9,20 per barrel; Double Extra Family, in barrels, $10,00, and, in sacks, $9,70 per barrel, and Spring, $8,00, in barrels, and $7,70, in sacks, per barrel.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, November 24, 1868.

The excitement in the oil market still continues, and at this writing, there is but little prospect of it subsiding. To give tone to the market it was reported to-day that Belmont, the great money king of New York, had commenced buying, in connection with some other well-known capitalists of that place. We hope, for the credit of the oil trade, that Belmont will be more successful in manipulating the oil market than he was in managing the recent campaign for the Democracy.

CRUDE.

The market was again firm, and considerably excited to-day, and compared with yesterday prices have still further advanced. The sales were again large, aggregating about thirty thousand bsrrels, including another "put." This new phrase although pretty well understood by the oil men, is hard to understand by outsiders, and indeed the same is true of quite a number of other phrases, used by oil men in connection with their business operations. The sales were:

6000, 1000 each Jan. to June	12½c
3000, first six months, seller	12½c
5000, December	12½c
1500, December	12⅝c
1500, immediate	12¾c
1000, immediate	12½c
1000, immediate	12¾c
1150, immediate	12½c
4000, Jan. to April (40 to 46 gravity)	12½c
5000, January to July	12½c

Also, a put of 2,000 bbls, seller's option, January to July, at 12c, and four hundred dollars cash.

REFINED

Te market continues firm and considerably excited, and, compared with yesterday, a further advance has been established. November sold up to 32½@32¾c; December, 31½@32c; January to June, 31½c, and January to April, at same figure. The sales were:

500, December, 15th to 30th	31c
1000, December, 15th to 30th	31½c
500, December, 1st to 15th	31½c

The Pittsburgh Gazette.

Annual Report of the Ladies' Relief Society of Allegheny City.

In offering this their twentieth annual report, the Officers and Managers of the association desire to express their gratitude to God, the Dispenser of all good, who has thus far crowned their efforts with success, in ameliorating the condition of so many of the needy and destitute, who have shared their charities; and also to repeat their thanks to those friends of the cause who have so often laid their offerings of material aid upon the altar of humanity in this behalf.

The record of the Society from year to year will compare favorably with any of our charities, according to the means at their command. In view, however, of the vast extension of our city, with its increasing population, wealth and poverty, efforts and substantial means, commensurate with the extended fields of labor, must be put forth.

The formation of the Society was an experiment, but not a doubtful one. With woman's energy, woman's prayers and woman's faith, it has risen like a bright star to cheer the hopes of worthy recipients of its alms-deeds; and expanding in its upward and onward progress, each succeeding year, will show increased activity on the part of the Managers, and corresponding good be accomplished.

Twenty years ago the world seemed to be comparatively "standing still," and enterprises, commercial, moral and religious were rather like moving on stilts than under the locomotive engine or the lightning's flash.

We are in the midst of mighty revolutions, civil, political and religious. Nations are being remodeled, or "born in a day." Earthquakes are troubling the mighty deep. The moral and physical elements seem at war with each other. The whole face of human society indicates that the Almighty Sovereign of the Universe has a controversy with us; therefore, under such circumstances, it becomes us to be in earnest, and press onward in all our good works.

Our doubts are traitors.
"And make us loose the good we oft might win
"By fearing to attempt."

It will be seen by the Treasurer's report that the Society is not in debt; and in prosecuting the work the managers will observe strictly their usual policy of confining their expenditures to the limit of their receipts.

Since the last annual meeting the Society has lost its venerable, much loved, and for many years most efficient President, Mrs. Gen. Robinson, whose heart was truly in the good work. Her memory will be cherished most affectionately by all who were associated with her.

Names of other members of the Association, who have, in the providence of God, been called from their labors, might be mentioned in this connection, but they have been entered in former annual reports.

Much might be said of the self denial of the ladies engaged in the work, and the painful and almost heart-rending pictures of want, distress and woe presented to them in their visits to the abodes of the suffering, outside and beyond the sympathies of the refined and fashionable portion of the community. It is, however, scarcely necessary to dwell upon such points, but close by earnestly appealing to all who have heretofore so liberally contributed of their means, and trust that those who have not been called upon will feel it a privilige and pleasure to make their offerings the present year, which it is apprehended will be one of more than ordinary pressure upon our charities. As far as returns have been made by the Managers, there was distributed during the season: of coal 9,600 bushels; flour, 3,500 pounds; tea, 17 pounds; sugar, 80 pounds; shoes, 210 pairs; coffee, 47 pounds; and 2,780 yards of cotton and woolen goods. Also in cases of sickness, crackers and various small articles of food were furnished.

The Society acknowledges with much pleasure the benefit derived from the Brewer Estate Coal Fund.

The number of families relieved was 271, of which 162 were those of widows.

MARY POINDEXTER, Secretary.

Electrical Gas-Lighting.

Roaming through the Capitol, the other day, to see what preparations were made for Congress, I fell upon Gardiner, the inventor of the lamp-lighting apparatus, which, as you know, leaps like a flash of lightning through the thousands of gas jets from the lantern of the dome to the coal pit of the far wings, setting one, or fifty, or a thousand aflame, at choice.

Gardiner is a middle-aged man, with black beard and hair, rather invalid-looking and meagre of body. He occupies one of the little old domes of the central Capitol, where is his prodigious battery, the acid buckets, holding three gallons apiece, made of glass, and there the ladies go to take shocks for nervous disorder or for amusement.

This patent is one of the most valuable in existence. The inventor has from twelve to sixteen years to run upon it, and he sits in his battery-room, aware that fortune is assured. All the gas lights of cities will be illuminated in this way, eventually.

"They've got to come to it," says Gardner, quietly. "The officers of the St. Louis Gas Company were here to see me a little while ago. New York has already entered into negotiations. London will be probably the second to accept it."

"What will it save New York to adopt this system ?"

"Well ! the city has a hundred and seventy thousand dollars a year for matches, lighters and inspectors. I can light the city for seven dollars a lamp, or about six hundred thousand dollars. Then the work is done forever ; there will be no more repairing. I calculate that the city will be even with itself in five years, and then for twenty-five years the town will be lighted for nothing."

Gardner already lights Stewart's new store on Broadway, several hotels in England and America, and the Capitol. He says that Washington is the worst lighted city in America, and Philadelphia the best, the difference being accounted for by the opposite quality of the gas.—*Washington Letter.*

CARDS OF ETIQUETTE.

The *Home Journal*, which is good authority on the subject, says that visiting cards will be, for this season, rather larger than formerly, and of the finest unglazed Bristol board. The new sizes will tend rather to the square than otherwise. The shape of the card may be varied, according to taste. Among the various texts in use, nothing will supercede the English script, and those inimitable styles of old English text, the most novel being those with dropped capitals, and the extremely neat, extra shaded. Visiting cards, with the familiar words denoting the object of the call, will remain in use, to some extent, especially for calls of Congratulation or Condolence. The word *visite*, on the left hand upper corner, will be engraved on the reverse side. The corner containing the desired word will be turned down, so as to denote the object of the call. The word on the right hand corner, *Felicitation*, will be used for visits of congratulation on some happy event, as, for instance, a marriage, or a birth; on the left lower corner, the word *Conge*, used for a visit previous to leaving town; the other corner is to be marked *Condolence*. Cards sent to friends before leaving for a long journey, are issued with the addition of P. P. C., in the left hand corner. These cards are inclosed in heavy and elegant, though plain envelopes, ornamented with a tasteful monogram or initial. In Wedding Invitations, all abbreviations like eve, for evening, will be avoided, as well as p. m., the word afternoon being preferable. Invitations to ceremonious weddings consist of a square note sheet, embellished with a large monogram in relief, entwining the combined initials of the bride and groom. The individual cards of both bride and groom must be also inclosed, united with a neat satin tie; and, in some cases, another card with reception days for the following month. A very neat style of card has the customary "at home" on a note sheet, a ceremony card (at fixed hour), and the united cards of bride and groom, all inclosed in a splendid large envelope, of the very finest texture, with an elaborate monogram or ornamental initial.

THE latest New York confidence game is thus detailed by a writer, who says he saw on Broadway a man, appearing to be a drunken sailor, walk up to a beggar woman sitting on the curbstone and pretending to be blind, and deliberately kick her. Great sympathy was aroused and the woman made a handsome collection from passersby. She walked down a few blocks, where precisely the same scene was re-enacted. This performance was repeated two or three times, when the woman went to her home in Water street, or rather to a beer shop there, whither she was followed, and found with three or four more "blind beggars," with their sight restored, and all rejoicing in their good luck for the day and in their toddy.

FOR SALE--REAL ESTATE.

FOR SALE.

A FARM OF 30 ACRES, on the line of the Connellsville Railroad, 27 miles from the city, in Elizabeth township, Allegheny county, Pa. The improvements are a fine two-story brick house, with ten large rooms and hall. A large frame bank barn, with No. 1 stabling, and all other outbuildings in complete order. One of the best of orchards, of all kinds of fruit. The soil is rich new bottom. This property adjoins the village of Buena Vista, and has the advantage of churches, schools, mills, stores, &c., and will be sold at the low price of $15,000. The improvements alone are worth at least all that is asked for the property, to say nothing about the land, which is worth for garden purposes at least $10,000. For full particulars call at my office, or WILLIAM A. BELL, Esq., on the premises.

ALSO, A FARM OF 40 ACRES, situated in Elizabeth township, Allegheny county, Pa., on the line of the Connellsville Railroad, about 18 miles from the city. The improvements are a new stone dwelling, with eight rooms; a good barn and other outbuildings. This property is offered at a very low price. Call and secure yourself a good bargain.

ALSO, A FARM OF 120 ACRES, situated in Elizabeth township, Allegheny county, Pa., 17½ miles from the city, on the Connellsville Railroad, opposite Elrod's Station, within 30 minutes' walk of the Station. The improvements are a frame house containing four rooms and kitchen, with a good cellar underneath; very good barn and other outbuildings. A No. 1 orchard, containing about 200 fruit bearing trees, all in good condition. 90 acres cleared land, the residue in good timber, underlaid with 23 acres of coal.

ALSO, A TWO-STORY BRICK HOUSE adjoining the Borough of Elizabeth, Allegheny county, Pa., containing 4 rooms and kitchen. Lot 60 feet front by 126 back to an alley. A good Stable, wash house, bake-oven and other outbuildings. I am authorized to sell it at the low price of $1,800, on good terms.

ALSO, In the Borough of Elizabeth, a good two-story BRICK HOUSE, containing 4 rooms. Lot 120 feet square. Will be sold at the exceedingly low price of $2,500, on easy terms.

ALSO, My Farm, known by the name of "Willow Banks," situated on the Connellsville Railroad, 17 miles from the city, containing 79 ACRES, all in good condition. The improvements are a No 1 brick house, two stories high, newly painted, containing six rooms, two halls running full length of the house. The house is situated on a beautiful knoll, is surrounded by fruit trees, shrubbery, vines and flowers, with a graded avenue running to the Yough. River. Also, a large frame bank barn, smoke house, wash house, coal house, bake-oven and other outbuildings, and a never-failing well of water. Two large orchards, containing from six to seven hundred fruit trees, nearly all in good bearing condition. This farm abounds in small fruits, viz: Currants, raspberries, gooseberries, and a fine large strawberry patch, which, in connexion with the richness of the soil and nearness to the city, makes it very desirable for gardening purposes. Very convenient to schools, churches, stores and blacksmith shop.

ALSO, A FARM OF 158 ACRES, situated in Elizabeth township, Allegheny county, Pa., 31 miles from the city of Pittsburgh, on the Connellsville Railroad, at Suter Station. The improvements are a common log house, a good frame barn, with stabling for ten horses; a corn crib and wagon shed; good orchard of fruit trees; fencing very good. 120 acres cleared, the residue in heavy timber land. This farm is valuable—first, for its excellent soil; secondly, its timber; and thirdly, it contains more limestone than any other farm in Pennsylvania, all accessible. The lower vein of limestone is 40 feet thick; several other veins ranging from 3½ to 6 ft. in thickness, lie under the whole farm. For particulars enquire of ELI SUTER, Esq., at Suter Station, or at my office.

ALSO, 175 ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad, at Houston Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn 40 by 60 feet, and other outbuildings. There is on the place a young apple and peach orchard; one hundred and twenty acres cleared land, divided into fields of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered, and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm.

ALSO, A beautifully situated tract of 60 ACRES of valuable land, under good fencing, situated in McCandless township, Allegheny county, Pa., on a township road, 7 measured miles from the Market House, Allegheny City. This tract is well adapted for a garden or dairy farm, being convenient and of easy access to either city, and near enough to the line of the Mahoning Railroad to make it very desirable for country seats, for persons doing business in the city.

ALSO, The best farm in Young township, Indiana county, Pa., 4 miles from Western Penna. R. R. at Livermore Station, containing 300 ACRES—225 acres cleared and under No. 1 fencing, as well as fine farming condition; the balance in good white oak timber. The improvements are 2 two-story frame houses, nearly new, of eight rooms each and finished basements and attics; a large bank barn 50 by 80 feet, a two-story spring house and other necessary outbuildings, all in good order; 5 acres of orchard of choice varieties of fruits; 4 feet vein of coal (now open,) underlying the whole tract, and limestone in abundance, with plenty of springs of never-failing water. Taken all together—houses, fencing, soil, nice lying surface, public highway, churches, schools, mills, &c.,—I know of no more inviting and desirable tract of land in Western Pennsylvania.

ALSO, FARM AND MILLS. A small tract of 60 ACRES of very valuable land in Derry township Westmoreland county, Pa.; well fenced and in a high state of cultivation, with new frame dwelling, and other outbuildings; a new grist and saw mill complete, with two run of burrs, two bolting cloths, and all the needed fixtures, in good order, and a young orchard of choice fruits; the lane is all underlaid with a six foot vein of coal, now opened and worked, at the back of the mill, and limestone in abundance. Call soon and secure a good bargain.

ALSO, FARM OF 160 ACRES, situated immediately upon the line of the Pennsylvania Railroad, at Blairsville Intersection, 54 miles east of the city. The improvements are a two-story stone house of 8 rooms, a No. 1 barn, 45 by 65 feet, the best of stabling and other outbuildings. The land lies well, is well fenced, is in good farming order, and will be sold very cheap if applied for soon.

Disorderly.—Henry Seeney, it appears, became disorderly yesterday and interfered with the private affairs of some of his neighbors, and Jacob Hoffman made information before Justice Heisel, charging him with disorderly conduct. A warrant was issued for his arrest.

Returned.—Robert Hague, the detective who "worked" the Benninghoff robbery case so successfully, has just returned from Canada, where he has been in search of Jim Seager, who was supposed to be the ringleader of the gang who perpetrated the robbery, but failed to find him.

Abandonment.—Mrs. Jane Nicholls, a resident of the Second ward, Allegheny, alleges that she was married to Henry Nicholls, in England, who has forsaken her since their arrival in this country. Alderman McMasters issued a warrant for the arrest of Henry for abandonment.

Charged with Fraud.—Thomas Miller alleges that Joseph Wealdy owes him $18.66, and that the said Wealdy is disposing of his property and chattels for the purpose of leaving the State and thus defrauding his creditors. Alderman McMasters issued a warrant for the arrest of Wealdy on a charge of fraud.

Assault and Battery.—James Little was charged with assault and battery, yesterday, before Justice Ammon, on oath of George Fritz and John Ackerman. The parties reside in Ormsby borough. The accused was arrested and taken to the Justice's office, where the case was settled, the defendant paying the costs.

Masonic Election.—At a regular meeting of Washington Lodge, No. 253, A. Y. M., held last evening, the following officers were elected for the ensuing Masonic year: W. M., Davis Glass; S. W., M. W. Canning; J. W., T. T. Ewens; Secretary, H. F. Egars; Treasurer, George Glass; Trustee of Masonic Charity Fund, George Glass.

Pea-Nut Thieves.—A number of boys have latterly been making raids upon the pea-nuts, apples, chestnuts, &c., exposed for sale at the doors along Liberty street, and yesterday one of them was caught filching chestnuts from a sack at Vangorder & Shepard's grocery store. He was arrested and taken to the lock-up to await a hearing.

The Amount of Insurance.—The amount of insurance on the Nut and Bolt Factory of Messrs. J. W. and W. Gaskill, which was destroyed by fire last evening, was $24,000, distributed as follows: Pennsylvania, of Pittsburgh, $2,500; Girard, of Philadelphia, $2,500; National, of Allegheny, $4,000; Citizens Pittsburgh, and Cash, of Pittsburgh, each $5,000.

A Dear Snooze.—Sometime on Monday night, a German, who refused to give his name, entered a beer saloon in the vicinity of the Union Depot, and after taking a drink, sat down on a chair and fell asleep. On awakening he professed to have been robbed of thirty dollars, which he had in his pocket before going to sleep. No clue was obtained as to the perpetrators of the robbery.

Forbes vs. Wade.—Jennie Forbes made information yesterday, before Alderman McMasters, against Lilly Wade for larceny. The articles alleged to have been taken away consisted of a dressing wrapper, valued at $10, and a small gold ring, valued at $2.50. This is a cross-suit between the parties and arises out of a misunderstanding between them. The accused was arrested and gave bail for trial.

Cutting Affray.—A rather serious cutting affray occurred in Temperanceville yesterday evening, between Marion Powell and John Finch, during which the latter drew a knife and stabbed Powell in the side, inflicting a serious wound. The injured man was removed to his home where medical aid was summoned. Finch made his escape and has not since been heard of. The officers are after him, and will doubtless capture him soon.

Alleged Wife Beater.—William Mackey, a resident of the Ninth ward, Pittsburgh, was before Alderman Taylor yesterday, charged with assault and battery by his wife, Jane Mackey. Jane alleges that her husband struck her with his fist, knocked her down, and choked her. After considerable discussion the matter was amicably settled, and the affectionate William and his forgiving spouse went their way from the Alderman's office arm in arm.

Four More.—Officer Thomas Smith made information yesterday before Alderman Hays against four proprietors of hotels and saloons, for selling liquor on Sunday. The names are respectively, Robert Scott, proprietor of the Scott House, Jas. McAllister, Second ward, Allegheny, Wm. Einstien, Diamond, Allegheny and Nicholas Miller, Columbia House, Federal street, Allegheny. The accused were arrested, and after a hearing fined $50 each. The matter will likely go to Court.

Radical Reconstruction.—The pastor of the First Methodist Church, Rev. Alex. Clarke, will discuss the subject of Radical Reconstruction on Thanksgiving morning, as a gospel measure, and show the duty of christian people in this national crisis. This pulpit is one of the most untrammeled among the denominations, and political issues are as freely discussed here as any other interest that concern the general welfare. Persons who enjoy good music may hear it in this church. Its organ and choir are excellent.

It seems hardly necessary to call the attention of our readers again to the fact that Messrs. Bates & Bell have opened this week a new and choice stock of dry goods at their emporium, No. 21 Fifth avenue. However, since any information of this kind must be of general interest, we perhaps cannot do better than by mentioning the additional fact that the stock has been specially selected for the season and cannot fail, both in price and quality, to please every person wishing anything in the line of first class dry goods.

Alleged Embezzlement.—An information was made before Alderman Nicholson, yesterday morning, by the agent of the Wheeler & Wilson Sewing Machine Company, against a sub-agent, for embezzlement. The prosecutor alleges that the defendant disposed of $1,500 worth of sewing machines, for which he has given no account, and that he still refuses to give any information in regard to the matter. The accused was arrested and gave bail for trial in the sum of $1,000.

Allegheny Fire Department Wagon.—It will be remembered that the wagon manufactured some months since for the Allegheny Fire Department was rejected by the Committee on Fire Engines of the City Councils, who had the matter in charge, and a new wagon ordered. The contract for the building of the new one has been awarded to the firm of Coleman, Forrester & Knoch, of Allegheny, who are to receive three hundred and thirty-eight dollars upon the acceptance of the wagon by the Committee.

Malicious Mischief.—P. M. Albott made information before Justice Heisel, yesterday, charging James Brown and David Stewart with malicious mischief. The allegations against the accused are that on Saturday night last they willfully and maliciously entered the engine house of the Mechanics' Hose Company, of Birmingham, and took therefrom the drum belonging to the Mechanics' Band, and willfully and maliciously beat said drum, to the annoyance of all good citizens, and seriously damaged said drum. A warrant was issued for the arrest of the drummers.

Alleged Untruthful Representations.—John M. Carson made information before Alderman McMasters, yesterday, against John McNutt for false pretence. The prosecutor alleges that McNutt represented to him that he was the owner of a large amount of real estate, in Clarion county, valued at $6,000. Carson further alleges that by these representations he was induced to sell on credit to McNutt his one-half interest in a tavern stand, in Pittsburgh, which was valued at $400, but subsequently he ascertained the representations to be false, and hence the suit. A warrant was issued.

A Boarding House Robbery.—Wm. Kelly and James Ready were fellow boarders at a house in the Fourth ward, Allegheny. Yesterday morning William went to work but James staid at home. William returned at noon and found James departed. An overcoat, silver watch, two shirts and a pair of pants, all belonging to William and valued at $90, disappeared simultaneously with the departure of James, hence William naturally concluded that James had taken them away with him, perhaps by mistake. The Allegheny police have been notified of the circumstance and are on the lookout for James. It is quite likely that they will be on the lookout for some time as their man is supposed to have left this vicinity altogether.

"The Pennsylvania Dutch."

George Alfred Townsend's lecture on the above topic attracted a select audience to the Academy of Music last evening. The subject was treated in a manner which developed an intimate acquaintance and familiarity with the history of the people, and the lecture abounded in many beautiful and humorous passages, which were highly relished by the audience who manifested their appreciation at intervals by applause. The next lecture of the course will be delivered at Lafayette Hall, by General Kilpatrick, on the evening of December 3d. Reserved seats will be sold at the Hall on the Tuesday evening previous. The subject of General Kilpatrick's lecture is "Sherman's March to the Sea."

Cross Suits.

Louis Wolf made information before the Mayor yesterday, charging Henry Grupp with assault and battery, and Grupp on being arrested preferred a charge of disorderly conduct against Wolf. It is alleged by Wolf that he had a bill against the firm, of which Grupp was a member, and that when he presented his bill, Grupp struck him and knocked him down, and on the other hand, Grupp alleges that Wolf acted in a very disorderly manner.

Wolf also preferred a charge of disorderly conduct against John Harper, who is also a member of the firm referred to. The parties at the hearing, compromised the disorderly conduct cases, and Grupp was held to bail for his appearance at Court, in the assault and battery case.

Amusement Directory.

OPERA HOUSE.—The attendance at the Opera House was not so large last night as it has been during the past week, yet the audience was a very fair one, so far as numbers was concerned. The inimitable Chanfrau appeared as "Joe" in which he sustained four characters. To-night the entertainment will consist of the "Hidden Hand," with the Deserted Dutchman as the afterpiece.

WILLIAM'S THEATRE.—The Old Theatre under the management of Harry Williams, is doing a thriving business. The house was crowded last night to its utmost capacity. Miss Kate Fisher is the attraction. Her "Mazeppa" is unapproachable.

VARIETIES.—The Varieties Theatre continues to draw full houses every night, no matter what the attractions are at other places of amusement.

MUSEUM.—The attractions at Burnell's Museum are as numerous as ever, and the Hall is continually thronged with visitors.

Fair and Festival.

The Fair and Festival for the benefit of the First Cumberland Presbyterian Church, Sixth avenue, Rev. Squier, Pastor, opened yesterday, and was largely attended throughout the day and evening. The fair is being held in the Lecture room of the Church, and every effort has been made by the persons having it in charge to make the entertainment pleasant and agreeable to visitors. A large variety of fancy and useful articles adorn the different tables, and may be purchased at reasonable prices. The arrangements in the line of edibles are perfect, and a dinner and supper will be served every day, which, if those of yesterday are any criterion, ought to be sufficient to appease the most exacting epicurean On Thanksgiving day a grand dinner will be prepared, and those of our readers who desire to satiate their appetites with a delicious meal, and at the same time help on a praiseworthy cause, should endeavor to be in attendance at that time.

Daring Robbery—A Mail Bag Stolen.

A transaction took place yesterday evening between six and seven o'clock, in the upper end of Temperanceville, of a very bold and daring character.

The cross mail from this city to Steubenville is carried on horseback by the way of the Steubenville pike, and yesterday evening, the road being muddy, the mail carrier was walking leading his horse, and just at the upper end of Temperanceville two men came from the side of the road, took the mail bag from the horse and made their escape up the hill. The mail carrier followed them for some distance, but lost them in the darkness. He then came to the city and reported his loss.

Such occurrences were not uncommon twenty or thirty years ago, but we never remember of a case quite so bold and daring as this one. The county is thickly populated at that point, and for miles around in every direction, and the perpetrator of such an act at such an early hour in the evening, and under the circumstances, would indicate rather an alarming state of society in the vicinity of Temperanceville.

THE COURTS.

District Court—Judge Kirkpatrick.

Court met at the usual hour yesterday morning, Judge Kirkpatrick on the bench. The following business was disposed of:

The case of Herron vs. Patterson, Neehous & Pharo, reported on trial yesterday, was resumed. The arguments were concluded and Judge Kirkpatrick delivered his first charge to the jury. He reviewed the evidence in the case and cited the law in a clear and able manner. The jury had not returned a verdict when Court adjourned.

The next case taken up was that of Sorg vs. the First Evangelical Lutheran Church of East Birmingham. Action to recover damages in the sum of $750 alleged to have been sustained by the plaintiff who was contractor for the construction of the church for the defendants, while in the course of erection, caused by a storm which blew down the rafters. On trial.

Common Pleas—Judge Stowe.

Court met at ten o'clock, yesterday. Judge Stowe on the bench.

In the case of B. H. Hibler vs. the Pittsburgh and McKeesport Car Company, reported, yesterday, the jury, this morning, found a verdict for the Company, defendant.

The next case taken up was that of the Commonwealth ex rel. Catharine Woog vs. Samuel Woog. The jury was empannelled to decide upon the sanity or insanity of the defendant, and presented a verdict to the effect that he was a lunatic and wholly unfit to manage his affairs.

The case of George Hassenger vs. executor of Benjamin Patton, deceased. The son of Benjamin Patton, deceased, was in the employ of plaintiff, and boarded at his house. While there he was injured in the harvest field, and after lingering some time died. Plaintiff alleges that he paid the expenses during the illness of the son, and also paid the funeral expenses. This action is, therefore brought to recover the amount expended. The jury was withdrawn and the Court entered non-suit with leave to take off.

The case of James G. Wair vs Joseph McAlpin, was next taken up. This was an action to recover $8, the difference between the contract price and the amount recovered for a wagon made for defendant by plaintiff, and sold at auction. The plaintiff is a wagon maker and made a wagon to order for defendant, which defendant failed to call for at the appointed time. The wagon was advertised for sale and subsequently sold at auction and this writ was brought to recover the difference between the contract price and the price received and expense of sale. On trial:

Apportionment of Councilmen for Allegheny City.—Local Politics.

Early next month the Commission appointed by the act of Assembly to apportion the representation of the several wards in Allegheny City, will meet to attend to their duties. The work of ascertaining the number of taxables upon which the apportionment is to be made, will be commenced immediately so as to be completed in time for the meeting. Under the new law there will be two members in Select Council from each ward. The representation in Common Council will be one member for every five hundred and seventy-five resident taxables in the ward. In numbering the resident taxables all widows and aliens will be counted. In some of the wards the new apportionment will increase the number of councilmen, but in others the number will be decreased. The following table exhibits the number of resident taxables of each ward and the probable number of Common Councilmen to which each will be entitled. The figures exhibited were taken from the books in the County Commissioners' office up to the latest assessments, but the additions which may be made by the assessors, who are to report to the Apportionment Commission, may alter them somewhat:

WARDS.

	Res. Taxables.	Members.
First	1,586	2
Second	2,058	3
Third	2,573	4
Fourth	2,237	3
Fifth	1,138	3
Sixth	1,179	2
Seventh	1,093	1
Eighth	633	1
Totals	12,497	17

There is considerable activity among the aspirants for seats in the next Councils and already the work of canvassing has commenced. The members of the Common Council being elected for but one year, all their seats will consequently have to be filled at the next election. In the Select, however, the members have heretofore been elected for three years, one representative from the ward retiring each year, and consequently but few vacancies in this branch will occur. The list of those whose terms expire this year embraces A. D. Smith, First ward; John Brown, Jr., Second ward; C. Gang, Third ward; William Smith, Fourth ward; George Black, Fifth ward, William Motheral, Sixth ward; A. Weise, Seventh ward, and Messrs. A. Callery, John Jahn and W. Krebs, of the Eighth ward.

The contest promises to be more exciting than at any previous election, and whoever succeeds will have to lay the ropes very skilfully before hand.

Stranger Robbed.

A stranger, whose name we failed to learn, arrived at the Union Depot last evening from the East, and was met at the station by two men, who offered to conduct him to the "William Penn" Hotel. Accepting their offer, he says they took him along Penn street, and when opposite the site of the Great Western Gun Works, enticed him in among the ruins, where they "garroted" and robbed him of his revolver, watch, and a large sum of money, after which they made off. As he could give no description of the perpetrators, it is altogether unlikely that they will ever be arrested.

Furs! Furs!! Furs!!!

Now that severe weather is fast approaching it is the part of wise people to "take time by the forelock" and prepare to meet it. We know of no better plan to do this than by calling at the mammoth Dry Goods and Fur establishment of Messrs. Bates & Bell, No. 21 Fifth avenue, and purchasing a set of those superior furs which are offered at rates which cannot but be satisfactory to every customer. The stock has just been opened and the ladies, to whom our advice in this matter is especially directed, will appreciate the importance of calling at their earliest convenience to get the choice.

Encouragement of Art.

It is a well known fact that Europeans are generally impressed with the idea that Americans have a false taste in all highly finished or decorative works produced by skilled artizans, and they cater, when at work for the American market, to what they consider the popular demand, by offering us works of a gaudy and meretricious style, rather than of the purest and best examples of art or workmanship. The fact is so well known to our largest importers, that when any article of excellence is demanded, they place particular stress upon the order, and even then they do not always succeed in obtaining a first-class article. The inconsistency of the American people is illustrated in their peculiar method of encouraging art. They deny the ability of the American artisan to produce work exhibiting rare skill and taste, and at the same time import inferior articles. If they are really honest it is their duty to encourage native skill and talent. As long as they prefer foreign manufactures to home productions they should not depreciate American manufactures. If they do not appreciate American art, they need not wonder if it languishes. Fortunately, however, there is a limit to even this disposition so common to a large class of our people. They cannot import lakes, fields or dwellings. In the matter of architecture they are compelled either to copy or originate. In this we have succeeded so well that a celebrated English writer, speaking of the public and private buildings in New York and Philadelphia, expressed the opinion that they exceeded in beauty and elegance the finest buildings in England. In church architecture, especially, and in church appointments we have made wonderful strides. Perhaps nothing in the way of art adds more to the interior beauty of a church than richly stained glass. Yet even here we have accomplished wonders. A quarter of a century ago few church edifices in the country boasted stained windows. Now they are everywhere to be seen. In time this art bids fair to flourish in America as it has flourished in the oldest cities of Europe. Utilitarians will see nothing commendable in this. Those who are interested in the art, however, cannot fail to welcome the new order of things. And to them we address ourselves directly. There can be nothing more certain than the fact that with every new design, with every new demand for an article requiring rare skill, taste and judgment, the chances are that the artisan will find himself taxed to keep pace with the improvements sought after by the public. Whoever gratifies his taste by securing a specimen of art that requires the study and reflection of the artisan contributes directly to art. This is, in fact, the practical encouragement of art.

That the mass of the American people are disposed to view the matter in the same light we need only adduce the experience of a single establishment of this city. Messrs. Page, Zellers & Duff, proprietors of the American Glass Works, have made extensive preparations for the production of a large amount of stained, enameled and ground glass. Combining glass making with glass staining, employing experienced workingmen, and fully determined to excel, they have achieved, in the short space of a year, a reputation second to none in the country. They invite attention to the article made in the American Glass Works, fully satisfied that it will bear favorable comparison with anything manufactured in England. Parties interested in public buildings, especially church edifices, are invited to examine their stained and enameled glass.

Messrs. Page, Zellers & Duff are also largely engaged in the manufacture of oval, square and round glass, shades for flowers, wax-fruit, &c. These shades are admirably proportioned, and as clear as crystal. All sizes made to order.

Good News for the Afflicted.

Dr. Robert Hunter, a physician and author widely known throughout the country, and one who has strewn his pathway through life with inventions to comfort and heal the sick and sore, has arrived in our city and put up at the Merchants' Hotel, where the afflicted and diseased can consult him. Dr. Hunter has ever been regarded as a bright star in the medical firmament of the country. His close study, large reading, extensive research, abundant practice, has made him thoroughly acquainted with all the diseases to which human flesh is heir. Knowing the human system, and having full knowledge of the nature of all the disorders which beset it, Dr. Hunter fills the idea of the competent physician. He makes no pretensions, but everywhere around him are the evidences of his great skill which speak in strong language in his favor. As an author he has contributed much that is very valuable to medical literature; as an inventor he has supplied to suffering mankind instruments that will forever find favor with the practitioner; as an introducer he has wrought a great change in the practice of medicine, and, in a measure, inaugurated the system of inhalation which commends itself to all men of science and education. Dr. Hunter's stay in our city will be very brief, and those who desire to avail themselves of his services should visit him at once, as such an opportunity may never again be offered them.

Printer's Ink—A Good Article.

The ink with which this issue of the *Republican* is printed is from the Gray's Ferry Printing Ink works of C. E. Robinson. It is clean, flows freely, and is of a good color. Our brother printers can judge of its quality by comparing it with ink from other manufactories.—*The Delaware County Republican.*

From the Delaware *Gazette*: TO PRINTERS—We have been using for several weeks a very fine quality of ink from the Gray's Ferry manufactory of Charles E. Robinson, which our Pressmen say is the best for cylinder press news work that they have used for a long time. It is a clear black and free from all kind of sediment. Mr. Robinson is a practical ink manufacturer, liberal and courteous in all business transactions, and as he has recently had the misfortune to be burned out, we are the more free to recommend his ink and himself to the patronage of all printers who desire a good article at very cheap rates. Address No. 521 Minor street, Philadelphia.

One of our cotemporaries also recommends it as follows:

FINE PRINTING INK.—We have for some time been using the News Ink manufactured at Gray's Ferry Printing Ink Works, Philadelphia, by C. E. Robinson, and, as stated some weeks ago, have found it better adapted to our presses than any ink we have had in our office for ten years. It is not only a very excellent article of Ink but it is furnished at very reasonable prices. The Works also manufacture Black and Colored Printing and Lithographic Inks, Varnishes, etc. Their address is Gray's Ferry Road and Thirty-third street, and No. 521 Minor street.—*Hagerstown Herald.*

We never recommend an article in these columns unless it really merits it, and to learn whether our own opinion of the Ink the *Tax-payer* is now using coincided with our pressman's, we inquired his estimate. He replied: "Good, very good;" and as we never knew him to deviate from the truth, we inform our fellow-printers that this was said of Robinson's Philadelphia Printing Ink.—*From the Tax-payer, New York.*

Great Bargains—Ladies' Furs.

The great bargains daily obtained by purchasers of Ladies' Furs at the first-class house of William Fleming, No. 139 Wood street, keep the commodious sales-rooms thronged with customers, and tax the fullest energy of the large corps of gentlemanly and courteous salesmen in constant attendance. The choice, richness, variety and immensity of the stock carried by this house excites the wonder of cotemporary establishments, while the exceedingly low prices form the theme for household conversation in all these parts. No other establishment in the same line of trade in this city attempts to keep so large a stock on hand, nor does any offer such a well selected variety from the lowest grades up to the very highest. It is certainly a novelty that a purchaser can, for ten dollars, procure a set of fashionable furs, both beautiful and comfortable, or for much more money, at the same establishment, procure the finest the market produces; such, for instance, as the rich Hudson Bay or luxurious Mink Sable. The cardinal principle of representing no goods in any other manner than justifiable by the quality, has won for the house an enviable popularity and public confidence. It is the universal and outspoken opinion on all sides that at this emporium wholesale and retail buyers save from fifteen to twenty-five per cent. in all their purchases, while they enjoy the great advantage of making selections from the largest and finest stock in the city.
